

Facebook Policy

Aim:

To use social media, through Facebook, to share with families, relatives and the greater community the centres events and activities. Participating Parents and Guardians will first be required to complete our Bunny Cottage Facebook Permission Forms.

Uses and Implementation:

The site will be managed by the Nominated Supervisor, Sharon Graham, and will allow parents and the community to view the centres events and activities through photos, videos and regular ‘posts’.

This will also be a way of sending reminders about upcoming events and special days at the centre. The site will allow families to see events and activities in a more timely fashion, for example daily activities, fundraising, special days and excursions.

The site will be used as an addition to the current forms of communication.

Additional outcomes:

This form of communication may possibly be used by children in the event of family holidays or special events where children can share things that are special to them.

Children express ideas and make meaning using a wide range of media.

Children use information and communication technologies to access information, investigate ideas and represent their thinking.

In-Appropriate Use:

This site will not be used for individual communication between staff and parents, for example to notify the centre of children’s sick day’s or holidays’.

This site is not to be used as an avenue for grievances and negative feedback. Bunny Cottage has a comprehensive Complaints and Suggestions Procedures Policy and form to be used in the case of issues arising that concern families.

Parents/family members or associates who abuse this site for complaints or grievances will have their child’s position IMMEDIATELY TERMINATED and we will reserve our rights to institute for defamation.

We encourage families to embrace this new form of communication and use it to further be a part of their child’s activities at our centre.
